

PROJECT PROFILE

Corwin Honda, located at 201 40th Street South in Fargo. A fast-tracked schedule allowed Corwin to move into their new building in December, less than seven months from ground breaking to occupancy.

A warm, inviting place to enjoy complimentary snacks and beverages is part of the experience at Corwin Honda. Let the kids enjoy the play area while you have a seat by the fireplace.

Corwin Honda

Fargo-based Corwin Honda is the first “Generation 3” Honda design dealership in the United States. Design began in March 2011, with construction getting underway in just three months later. A fast-tracked schedule allowed Corwin to move into their new building in December, less than seven months from ground breaking to

occupancy.

Corwin Automotive Group operates eight dealerships in locations from Western Montana to Jefferson City, Missouri. They offer Honda, Toyota, Jeep, Chrysler, Dodge, Chevy, Buick, GMC and Cadillac vehicles. The all-new Fargo Honda is the latest addition to the Corwin family of dealerships, which began in 1914 by Samuel Wickham Corwin.

Project Facts

- 41,956-square-foot auto dealership
- 7-month completion
- Design-build project delivery
- Conventional construction
